G2 Industrial METER MODULES G2 SERIES

FM Approved Remote Kit Assembly (Part No. 113275-1)

FM Approved Remote Kit Assembly Installed

The Factory Mutual (FM) Approved Remote Kit Assembly modifies FLOMEC® Electronic Digital Meters for applications in specialized situations including remote indication and high or low fluid temperature metering applications. This kit provides the versatility of panel mounting of the LCD readout up to 100 ft. (30 m) from the turbine.

This kit consists of a sensor module, a dust cover assembly and 10 ft. of cable. Requires a complete meter with display.

Features and Benefits:

- Maintains FM Approval.
- Accommodates fluid temperatures from -40° F to +250° F (-40° C to +121° C) depending on meter.
- This kit can upgrade an existing FLOMEC[®] meter or can be purchased with a new meter.
- Battery powered from meter; no additional power required.

SPECIFICATIONS			
Magnetic Pickup:	1.3 k Ohm, 90 mH		
Signal Type:	Sine Wave		
Voltage:	Peak to Peak 10 mV to 500 mV		
Frequency:	11 to 750 Hz		
Cable:	10 ft. (3 m), 2-conductor shielded, Belden #9501		
APPROVALS			
FM APPROVED L	$\overbrace{PROVED}^{\widetilde{FM}_{15}} C \in {}^{NEMA}_{4} \xrightarrow{ATEX}_{\langle \widetilde{E}_X \rangle} IP65$		

Conditioned Signal Output Module

This module provides an unscaled, amplified, digital signal capable of transmission up to 5,000 ft. (1.5 km). There is no need for additional signal conditioning or amplification devices to achieve the desired digital signal. Use on G2 "Turbine Only" model.

The module is factory assembled for Open Collector signal output and operates from an external 9 to 35 volt power source. By changing terminal connections and adding a battery kit, the module provides a self-powered 6-volt Square Wave signal.

Features and Benefits:

- Provides two digital signals: Open Collector or 6-volt Square Wave and can communicate with most process control devices.
- Operating temperature range of -40° F to +212° F (-40° C to +100° C).
- Can be externally powered or battery powered.

SPECIFICATIONS		
Connector:	Hubble PG7	
Signal Type:	Open Collector (NPN)	
Power:	External 9 to 35 VDC, approximately 1 mA	
Connection:	Three wire	
Frequency:	0 to 750 Hz	
Cable:	10 ft. (3 m) Belden #9363	
APPROVALS		
CE		

REFERENCE APPROVALS Guide

At Great Plains Industries, we've been building rugged, reliable, liquid flowmeters for over 35 years. The GPI Industrial Meter family includes a full line of Precision and Industrial Turbine meters plus Oval Gear meters in various materials, sizes and fitting options.

We design products to meet the needs of our customers. This includes maintaining appropriate, industry standard approvals. Approvals vary by product line and may be dependent on meter application.

The Approval symbol is listed under product specifications on individual product pages. If no approval mark is found, check the chart to the right. For details about specific "Approvals" refer to the chart.
